Objectives

- to bring new opportunities for business in the Poultry and Aqua sectors.
- to boost development of business and the economy of the State and the Country.
- to keep abreast with the latest developments and practices in the Poultry and Aqua Management, Health & Nutrition, Breeding and new techniques in feed manufacturing and overall Poultry and Aqua production.
- to provide technical guidance to the farmers in adding value to their end products and in waste management.

Why Bihar...!

Poultry Industry- mainly broiler and layer farming- has emerged as one of the promising sectors for the farmers in Bihar. Aqua culture has also shown significant growth in the last couple of years. This has also opened avenues for several intermediary businesses for both farmers and traders. In this phenomenon of rapid growth of these segments, the aspects most required for the farmers and traders are the information and awareness about important factors like biodiversity, cost of production, financial and marketing avenues etc. Local farmers also need technical guidance and hand-holding in value addition to their end products. These are the areas where all stakeholders need to be updated regularly. Looking at these requirements, this exhibition-cum-trade fair has been planned in Bihar for the mutual benefit of all the stakeholders of the whole region.
